REFLECTIONS:

Learning outcome from your experience with all the implementations involved:

Engaging in this project allowed me to develop a deeper appreciation for the nuances of teamwork and the importance of clear communication. The experience has been instrumental in enhancing my skills in web development and AI application.

Things which went well:

The team's ability to adapt to new challenges and technologies was impressive. Each member brought unique strengths to the project, resulting in a harmonious and efficient workflow.

Things which didn't go so well:

At times, coordinating schedules for meetings was challenging, given everyone's varied commitments. However, we managed to find a balance and work effectively.

Given the option, what would you have done in a different manner:

I would have advocated for more regular checkins during the early stages of the project, to ensure alignment and address any issues proactively.
