REFLECTIONS:

Learning outcome from your experience with all the implementations involved:

- The project was a great learning experience, offering insights into advanced web development and AI integration. The collaboration fostered a deeper understanding of the practical applications of our theoretical knowledge

Things which went well:

- The team showed exceptional cooperation and dedication. The integration of complex features like the AI helpdesk and exam creation was seamless, thanks to the collective effort.

Things which didn't go so well:

- Initially, integrating diverse technologies posed some challenges, but these were quickly overcome through effective teamwork and problem-solving

Given the option, what would you have done in a different manner:

- In retrospect, a more thorough initial planning phase could have streamlined the early stages of integration, especially concerning the AI components.
